Doug Berger
Founder & President, Innovate LLC
Publisher, *THE INNOVATORS* ezine

INNOVATE LLC is a management consulting firm known for its two operating platforms. 1) **Enterprise-wide Innovation** and 2) **The Breakthrough Approach**. We bring an end-to-end process for achieving unprecedented business outcomes. Our approach recognizes your business reality ... that people are often working under challenging and difficult business conditions and critical elements for success are not in place at the outset. Our clients ask that we hold them to account for the bigness of their future ... that we be hard on their thinking and on the actions that must be taken, yet empowering and enabling of the people who must take them. First and foremost, we view the *Human System* as the source of breakthroughs.

My passion for speaking

My passion for speaking, and the true heart of Innovate's work, lies in advancing people's thinking shifting the mindset mobilizing the human system ... bringing out the best in people. Clients say that I am dynamic and engaging ... that they come away from my talks thinking things which they had not thought before having clear pathways for action they had not seen before being reenergized and more effective at work.
